

Reporting Choices: Beyond Q&A

AGENDA

13.00

REGISTRATION & LUNCH

Please join us for this networking lunch, with registration for anyone only joining us for the afternoon session.

14.00

MANAGING MULTIPLE DATA SOURCES

Put your hands up those of you who have to produce reports from data held across multiple systems as well as SunSystems? In this session we will show you ETL Agile, Touchstone's configuration of the TimeXtender data warehouse tool designed to integrate with SunSystems to make your data more easily accessible and reliable.

Session 2

INFOR d/EPM VERSION 12

The latest generation of Infor's Enterprise Performance Management and Reporting application suite. During this session you will see the software in action and learn more about its budgeting, planning, business intelligence and enterprise reporting capabilities.

Session 3

SHARPERLIGHT FOR SUNSYSTEMS

If you like Q&A, you will love this! Sharperlight is the latest offering in our portfolio of reporting tools, empowering your end users with web reporting capabilities. With full 64bit support, it is simple and intuitive to use; create powerful reports in minutes that you can publish through a web browser, create dashboards and KPIs with full drill down capabilities. See how this tool could take your reporting to the next level.

16.00 - 16.30
